KUSCH+CO
by Nowy Styl

Forever Young! Some chairs never grow old. The series ¡Hola! is a good example – the dynamically curved backrest resembles the shape of a sail. Designed by Jorge Pensi back in 1996, ¡Hola! has long since obtained the status of a design classic. And a very popular all-rounder among the multipurpose contract chairs. **Ideally suited to furnish a multitude of environments, ranging from lobbies and conference rooms, canteens, seminar rooms and staff restaurants all the way to healthcare facilities and large assembly halls.**

¡hola!

Now available with more options! The extensive palette of colour and finish options is complemented by wood-covered legs. The tables with matching design aesthetics functionally complete this product family.

colour wood table black hygienic

colour

¡hola!colour

A firework of colour! 11 colours are available for the seat, back and arms. The components can either be colour-coordinated or be mixed and matched in different colours. For instance, the arms and back can have another colour than the seat. For the frame, the standard collection comprises 7 powder coating colours or choose between two surface finishes: chrome or satin chrome. Whether muted, colour-coordinated or multi-coloured – the choice is yours. Through the fabrics for the seat and the back, it is possible to add even more touches of colour.

A man with dark hair and a beard, wearing a dark jacket and a backpack, is leaning on a rustic wooden railing. He is looking off to the side with a thoughtful expression. The background is a dense, dark forest. The word "wood" is written in white lowercase letters across the center of the image.

wood

jhola!wood

Another variation! The stability of steel combined with the charm of natural wood. The clou: the legs are made of steel, however covered with a real-wood “sleeve”, featuring an exquisite, diagonally running wood grain. Either natural beech or oak. On request, stained in a colour from our standard collection.

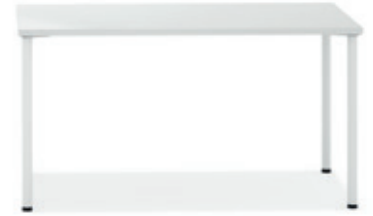

table

¡hola!table

A perfect match! The tables of the series ¡Hola!. Characterised by a minimalist design and well-balanced proportions. Consummate all-rounders for all environments. Available with either a wooden or steel frame. The rectangular, square or round table tops come in various variations with a wide range of materials, surfaces and lippings. The table legs can be made of the same materials and have the same finish as the chairs' legs.

black

¡hola!black

Our Black Edition. Entirely in black, upmarket and classy. This colour reduction emphasises the clean lines and design language. Perfectly suited as eye candy in modern interiors.

Possible configurations seating:

Black plastic parts, frame textured powder coated in pearl black (RAL 9005) or upmarket black chrome. With the aim of matching this finish, we recommend one of the following fabrics from our standard collection:

- Silvertex: black 122-9001, storm 122-4002
- skai Parotega NF: black F6461659
- Gravity: black CPC31, slate CPC16
- Remix 3: 163, 173, 196
- Valencia: black 107-9035, graphite 107-4003
- skai Pureto EN: black F7610020

Possible configurations tables:

Legs textured powder coated in pearl black (RAL 9005) or upmarket black chrome. Our recommendation: Fenix NTM nero ingo 0720 with matching lippings from our standard collection for the table top surface.

A healthcare worker, likely a nurse or doctor, is shown in profile, facing left, washing their hands at a stainless steel sink. They are wearing teal-colored scrubs, a matching surgical cap, and a white surgical mask. Their hands are positioned under a running faucet, with water visible. The background is a clinical setting with a grey wall and a white cabinet. The word "hygienic" is overlaid in white text across the center of the image.

hygienic

¡hola!hygienic

¡Hola! with hygiene concept. Including Fire Prevention.

Easy to clean and safe to disinfect! No open-pored wooden materials, no back slits, no unsuited upholstery materials, no components that degrade upon contact with disinfectants are used for these variations. They are constructed to impede the adhesion of germs, e.g. viruses, bacteria or mildew, to the surface, and as such reducing the germ transmission risk to patients, visitors and staff members.

- Plastic parts have an antibacterial coating
- Legs either chrome or antibacterially powder coated
- Seat heights 45 cm, 50 cm, 55 cm
- QR code with link to cleaning and disinfection instructions
- Hygiene-oriented stacking plate for time-saving cleaning and disinfection
- Table frame either chrome or antibacterially powder coated
- Table top surface HPL Resopal Antibacterial

- Table height matches the seat height
- Safe disinfection with colourless, DGHM/VAH-approved disinfectants, tested in compliance with DIN EN ISO 9001:2015 in Kusch+Co's own laboratory
